### GOVERNOR HILL'S OPINION.

### He Gives His Reason for Refusing to Honor Governor Bulkley's Requisition.

ALBANY, N. Y., Mar. 5.-In dishonoring Governor Bulkley's requisition for extradition of the Danbury horse-thief Colbert, Gov. ernor Hill files an epinion in which he says:

Judge Morris received an actual majority of votes east for Governor, and has been declared duly elected by the Senate. He is Governor of the State de jure, having been duly qualified "by taking and filing the required oath of office, which is the only act to be performed by him as condition precedent to his right to exercise the functions of office. He is acting as Governor so far as he is permitted to do so. Mr. Bulkley is a mere usurper and as such has no claim to be considered as Governor defacto. The judicial decisions upon the subject are all to this effect. In the People vs. Albertson (SHow, p. 383) it was held that a claim cannot constitute the claimant an officer defacto, and Conover's case (5 Abb. p. 77, People vs. Peabody (6 Abd. p. 208) and the Mayor of New York vs. Flass (6 Abb. p. 296, it was held that where a public officer had been duly elected or appointed to an office and had done all in his power towards assuming (2000, 22) that there cannot be performing the duties of office, at the same time citing Reardman against Halladay (10 Page 223). People against V. Peabody, Morgan against Quackenbosh (22, Barbe 72). This case was affirmed by the court of Appeals in 97 Ny, 271.

MY BUTY TO DECLINE.

MY DUTY TO DECLINE.

From a careful examination of the legal authorities upon the question, and from the opinions of able counsel whom I have consulted, I am advised and satisfied that it is my duty to decline all requisitions coming from Mr. Bulkley under the present situation of affairs in Connecticut.

When the requisition papers are presented to the executive he must judge of their authority, validity and sufficiency. I would gladly honor a requisition for the surrender of a fugitive from justice coming from the lawful executive authority of Connecticut. If for any reason the lawful executive authority of that State is at present powerless to exercise its proper functions, it is a public misfortune which would however, afford no justification to me should I give official recognition to one who unlawfully claims the right to exercise such authority.

# "City of Richmond" Burned.

New York, Mar. 5.—The Hartford line steamboat City of Richmond was almost totally destroyed by fire this afternoon while lying at her pier. The loss to the steamboat and cargo is \$50,000. The fire was discovered by a deck hand, who immediately sounded an alarm. It took the firemen fully an hour and a half to get the flames under control, and by that time nothing was left of the vessel but a charred hull. The vessel had a crew of sixty men. All of these escaped but Halsley Hill, a colored waiter, whose body was found lying on the dock after the flames had been extinguished and Harry Page, who had two ribs broken by a fall while making his escape from the burning vessel.

The City of Richmond has been in the company's service for about four years and was broken by service for about four years.

Williamsburg, Va., Mar. 5.-[Special.]-There was a special meeting of the Asylum Beard held here yestering. It is said that this meeting was called at the instance of Directors livin and Goodwyn, who were members of a special committee appointed recently to visit the insane asylums of several States and inquire into the management and the general impression prevailed that this meeting was called for the purpose of receiving their report. Whether this was the case or not is unknown, as the proceedings of the meeting were secret but certain it is that business other than that for which the committee was appointed was transacted, and, moreover, of a nature to interest our people. Your correspondent yesterday, learning that the Board was in session, went around to the asylum in order to find out if he could the object of this meeting, and what had been the result of their deliberations but upon seeing one of the members of the directory was informed that they had been in executive session all the morning, and that he was not at liberty to divulge the proceedings.

Blackstone, Va., Mar. 5.—[Special.]—Mr. C. D. Davis, a young man of this place, while hunting vesterlay shet a robin, the bird falling in a thick undergrowth. In trying to procure it the other barrel of his gan was discharged, firing the whole load into the fleshy part of his left arm between the shoulder and elbow. Mr. Davis wound, though painful, is not considered dangerous, and at this writing is resting quietly. It is rather a strange coincidence that the father of the young man, Mr. S. S. Grymes case yesterday. The examination will take place to morrow before the Polica Court, and until then it is unlikely that any new facts will be brought out.

A Trues reporter saw Mr. Childrey yesterday and said: "Mr. Childrey, it is the theory of some that you would not have taken fine matter before the Mayor if this had been Mr. Grymes lirst offense. Is it true that such things have occurred before:

"You should not ask such questions," was the reply from the City Treasurer.

He stated, however, that he regretted deeply the course that he had to pursue, but as a public officer and servant of the poole, there was no course left to him but to earry the matter before the Mayor. In just the same position Mayor Ellyson was placed.

His Honor had a long conference with Mr. Childrey gesterlay morning, and it was currently reported by persons in the city Hall who know that Mayor Ellyson will employ an expert to go over the books.

The most serious charge against Mr. Grymes is the allegation that he marked certain bills paid in the book in the Auditor's office, which, according to the warrants in the Treasurer's office, had not been paid.

The Code of Virginia in reference to embezdement by public officers, says:

# THE END IS NOT YET.

THE KAISER FEELS PERSONALLY SNUBBED BY FRANCE

And May Grasp at the Slightest Pretext for War-Great Britain and Brazilian Reciprocity...The Striking Dockers Will Resume Work-Foreign Events.

(By Cable to The Times.) LONDON, Mar. 5.—A Berlin dispatch says that notwithstanding pacific assurances and rumors the Kaiser continues to be deeply incensed against France. He is not so much incensed by the discourteous treatment of his mother in certain newspapers, or even by the frantic anti-German utterances of a por-tion of the people, as by the single fact that he failed in his plan to obtain French pictures for the Berlin exhibition, and that he was personally snubbed and disappointed.

This feeling shows itself to all who approach him, and occasions considerable apprehension that the Kaiser may grasp at some pretext for fighting the French. He no longer talks of peace, and both his manner and language indicate that he anticipates war, and has come to the conclusion that another strug-gie will be needed to settle the title of Germany to Alsace-Lorraine.

cian, Dr. Lindemann, of Manchester, who was found dead last December in a ravine at Sin Remo. It was supposed at the time that death had occurred from accident or that it was a case of suicide. The police, however, were not entirely satisfied with this view of the case, and as a result of their continuous work in unraveling the mystery two important arrests were imade last night. The prisoners are a man and woman.

It is alleged that the woman lived the doctor to her lodgings, and that while he was there he was overpowered by the man and woman, and robbed and intradered. The body was then conveyed to the ravine, where it was subsequently discovered. As yet, the full details of the affair have not been made public, but there seems little doubt that the guilty parties are the ones in custody, and the facts outlined are supported by evidence in the hands of the authorities.

They Have Raised the Boycott on Federation Vessels, and Will Resume Work. (By Cable to The Times.)

London, Mar. 5.—The dock laborers, in exchange for some triffing concessions, have raised the boycott on Federation vessels, and will resume work. The stevedores are expected to go to work to-day. The virtual fadure of the movement is attributed to lack of mutual support among the various unions. The coal-tipeers at Cardiff are still out, but are disposed to compromise unless the rail-road engineers and other labor unions will strike in their support, which is very unlikely, in spite of Tom Mann's munderous efforts in the direction. Mann last night appealed to the laboring classes to stand together. In his speech he declared that only two million out of nine million ware-workers in Great Britain are organized. This was sufficient to account for all the failures of labor. raised the boycott on Federation vessels, and

# FRANCE AND EGYPT.

### England Reminds France That She Must Give Up All Claims to That Country. (By Cable to the Times.)

LONDON, Mar. 5.-The English press expresses much indignation over the persistent interference of the French in Egypt. France is reminded that she must give up all claims on Egypt when she failed to come to the res-cue of the Khedive in 1882. Advices from Cairo state that the Khedive will not yield one tittle to the French, and entirely ignores the interference of Russia. The Khedive's wife,

# Queen Emineh, who takes an active part in politics, is said to be especially opposed to French dictation, and took occasion to mention at a State entertainment, when the Count de Anbigny, French Minsiter, was present, that England alone restored her luckand to his throne when the Arals led the rebellion against him. The Egyptians at Cairo treat the French very coldly, and the agustion has resulted in a scrious loss of trade to French merchants. A Zanasbar dispatch says that not withstanding the recognition by the British Government of the rights of Fortugal in Manical, the British fage continues to fly at Massi Keese, and the British South African Company shows no signs of retiring.

### Lord Londonderry and the Striking Miners. Emigration to the United States.

(By Cable to The Times.) Lospos, Mar. 3.—Lord Londonderry will renew his campaign on Monday against the striking miners at Silksworth, in the county of Durham. Several hundred remain to be evicted. Of those who have been turned out of their houses all have found a refuge, some of the families being housed in a local chapel, and others distributed among the neighbors. As in the recent evictions the large force of police constables, numbering 330, prove inadequate for the complete protection of the evicting party, a body of troops will be ready to protect the men engaged in the work. It is feared that there may be trouble as the miners on strike have the sympathy of thousands of the others throughout the country of Durham. The Mayor of Sunderland has endeavored to act the part of a peacemaker but in vain, as no settlement could be arrived at satisfactory to both parties. striking miners at Silksworth, in the county

### UNITED STATES THE PROMISED LAND.

United States the fromised land.

The British emigration shows that the United States is still regarded as the promised land by the great number of British emigrants. During the month of February alone the emigration to the United States far exceeded that to all other countries combined, being 10,000 in a total of 11,000. Australia comes next, Canada ranking after Australia. The attempts to obtain emigrants for the new territories in Canada has been a complete failure, as after one winter they all desert to the United States. A recently-returned emigrant from the Canadian northwest has stated in Manchester that he was snowed in cight months of the first year and had hardly time to get wood and lay in some provisions before winter began again.

A Vienna dispatch states that several Hungarian officials are being prosecuted on the
charge of defrauding a Frenchman named
Desplanques, who paid 10,000 tranes under

was not bestowed possibly because the money

character have been frequent of late in Hungary and Vienna by persons claiming to have
influence at court, and that a number of persons, especially foreigners, have been victimized, but have not cared to expess their own
